

Release notes Softphone 5.5.3.7978

Resolved issues

Reference (Priority)	Description
Failed call transfer after call pickup (TK-209212)	
MTCS-23149 (Low) MTCS-24159 (Medium) MTCS-24218 (Medium)	If a call is ringing on one agent, but another agent answers through call pickup, a followed call transfer will fail. Instead of being transferred the call is parked.
Not possible to select 'call with' end-point when using MS Outlook add-on (TK-211793)	
MTCS-23304 (Low)	When having enabled call monitoring (CTI) and setting up a call from MS Outlook in the contacts list, using the built-in plugin, it is not possible to select which device to make the call from.
